Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 May 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 8-11 and 14 are rejected under 35 U.S.C. 102(a) as being anticipated by Pfeifer et al.

There is disclosed in Pfeifer a coffee machine, comprising: a housing and a brewing chamber; and a drawer 16 insertable within the housing, the drawer having guide continuations 82, 84 which engage guides within the housing, where in the continuations are slightly beveled on the ends.

In regards to the removably and detachably connected arrangement of the drawer, it is apparent that the drawer could be removed and returned. The presence of elements such as rails 82, 84 and guide wheels 86, 88 give weight to the draw being removable and connectable to the housing.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pfeifer et al. in view of Basile et al.

Basile discloses a drawer for a coffee machine, the drawer having base which includes a central opening surrounded by smaller openings of a screen member.

It would have been obvious to one skilled in the art to provide the drawer of Pfeifer with the screen taught in Basile, in order to ensure no coffee particles pass through the central opening.

Allowable Subject Matter

Claims 12 and 15-19 are allowed.

Response to Arguments

Applicant's arguments filed 5/13/2009 have been fully considered but they are not persuasive. Applicant argues that there is no teaching in the Pfeifer reference that the drawer is removably and detachably connected to a housing.

It should be noted that the drawer is guided and supported by rails and guide wheels which allow for a fluid movement forward and backward. A removal of the rails from the guide wheels would allow for removal of the drawer from the housing. It should also be noted that the drawer could be manually removed and placed within the housing by some form of force if need be. Applicant has failed to disclose any structural arrangement which would define a removable and detachable connection. Thus, the fact that the drawer of Pfeifer could be removed and detached by some means is enough to read on the claim language.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
